SCHAEFFLER

WHEN YOU NEED MORE

FAG OPTIME C4

As the world's first smart lubricator, the OPTIME C1 revolutionized machine lubrication.

But sometimes, you simply need more to eliminate unnecessarily complex or timeconsuming tasks.

The FAG OPTIME C4 expands the portfolio, offering more when more is needed.

BENEFITS

The FAG OPTIME C4 offers the benefits of smart lubrication already known from the OPTIME C1. Its additional features and functions make machine lubrication even more convenient.

EVEN MORE SMART LUBRICATION

The FAG OPTIME C4 is part of the OPTIME Ecosystem, which now offers you even more possibilities for smart lubrication. Based on vibration data, OPTIME Condition Monitoring detects when your machine needs more lubricant – and warns you accordingly.

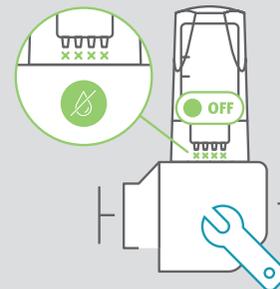

MORE APPLICATION POSSIBILITIES

- Four individually programmable outlets for multiple lubrication points
- 70 bar outlet pressure for machines that are further away
- Up to 850 cm³ filling capacity for high lubricant consumption

MORE OPTIONS

- Cartridges are available filled or empty, allowing free choice of lubricant
- On/off function saves lubricant and energy

MORE INSIGHTS

- Recognition of inserted cartridges ensures smooth operation
- Display of lubricant quantity allows for precise planning
- High back pressure warning helps to localize
